CS101 Programming Lab Assistant

Job Description

The Programming Lab Assistant will support students in CS101 with their weekly programming assignments and lab sessions. Responsibilities include helping students debug code, understand core programming concepts, and troubleshoot technical issues. The assistant will also help maintain a positive and productive learning environment.

Essential Requirements

- Currently enrolled in a Computer Science or related degree program.
- Minimum GPA of 3.5.
- Strong understanding of fundamental programming concepts (e.g., data structures, algorithms).
- Proficiency in Python and Java.
- Excellent communication and interpersonal skills.

Desired Skills

- Previous experience as a teaching assistant or tutor.
- Familiarity with version control systems (e.g., Git).
- Experience with integrated development environments (IDEs) like VS Code or IntelliJ.
